CHALLENGE

Securing a public TV station
in a residential area

RED

Challenges posed, tactics and technology

- In this residential area, distinction between friend and foe and between civilians and combatants poses a serious challenge.
- The physical integrity of the public TV station is an essential precondition to protect the cyber infrastructure needed for broadcasting, as is the securing of connectivity (electricity), while the station needs to be protected against any enemy hacking and cyber manipulation/takeover

BLUE

Objectives and associated tasks

- Secure physical integrity and connectivity of TV station and its employees.
- Interdict cyber attacks aimed at disrupting public TV services.
- Cover building from potential RED air/ground attacks.

Use the technologies and your imagination to create systems
that will help BLUE to achieve their objectives!
