

TITLE

Simultaneous attacks

CHALLENGE

Neutralize a number of simultaneous small arms attacks rapidly and coordinate with police and medical units

RED

Challenges posed, tactics and technology

- Shootings and knife attacks happen in several different locations in town, leaving a couple civilians and members of the non-state armed groups wounded or dead. BLUE is challenged to catch and disable the perpetrators and calm down the population/ prevent further escalation and mass panic.
- The specific challenge is the urban territory with a lot of places to hide, while the arms are small (guns and knives) and perpetrators not easy to detect as combatants (probably civilian clothes etc.).
- Very rapid reaction (deployment) necessary.

BLUE

Objective and associated tasks

- Identify sites and perpetrators/scale of impact.
- Deploy rapidly.
- Neutralize perpetrators.
- Secure sites of incident.
- Inform and reassure civilian population.

Use the technologies and your imagination to create systems that will help BLUE to achieve their objectives!
